

My dearest colleagues from Malmö

Thank you very much for the lovely time our teachers and students had with you in Sweden last week!!! Also: thank you very much for the photos you sent me.

As I understood, the Swedish students have become very good at debating, and you had a new project in the programme, called Malmö on the Map, which was very successful. This means that the programmes we do together are still developing. I think this is a very important aspect of an exchange programme between schools on a regular basis.

This means that the teachers get inspiration from the contact with the foreign school and of course that is very important.

As always, staying in a Swedish family and working at a Swedish school is a very good experience for Dutch students. Even getting contacts in Sweden for a major thesis was part of the exchange this year (for one student who got in touch with Malmö hospital).

We hope we can provide you with an equally satisfactory programme when you come and visit us in September. I'm really looking forward to meeting you again in Meppel in September!!

With kind regards,
Hannie Hofland
